

# PARTICIPANTS NEEDED

## About

A committee of market research volunteers will be conducting phone interviews with cancer patients and their caregivers to understand attitudes and awareness around integrated therapies in cancer care, including herbal supplements, diet, acupuncture, massage and yoga. Your feedback will help us refine our resources and potentially develop new ones.

This research study will begin in September 2021, and the phone interviews will last approximately 30 minutes.

We appreciate your support and participation to help BUCK's mission of Bridging & Uniting Cancer Knowledge!

## Eligibility

We are seeking participation and feedback from:

- Cancer patients
- Patient caregivers
- Researchers & students
- Volunteers & donors

## Interested?

If you are interested or have questions, please contact Joy Gupta at [JGupta@buckcancerfoundation.org](mailto:JGupta@buckcancerfoundation.org). Thank you for your support!

Information provided by respondents during the telephone survey will be treated as confidential and used for research and marketing purposes only.
