

Pay A BUCK Forward Grant Program

Pay A BUCK Forward Grant Program Overview

The **BUCK Cancer Foundation** seeks to support and fund opportunities and endeavors that build a bridge between ALL viable forms of cancer research and treatment and unite them in one goal: to provide greater comfort to cancer patients during treatment while working toward a cure. **The Pay A BUCK Forward Grant has a theme of Integrative Cancer Treatments** and we are interested in academic programs and students with an emphasis on complementary cancer treatments such as medical marijuana, nutrition, acupuncture, etc.

Pay A BUCK Forward Grant Benefits

This is a terrific opportunity for students currently enrolled or enrolling in a program that focuses on integrative cancer treatments. The program's specific purpose is to cover a student's tuition and fees, as well as any other federally qualifying educational expenses. The grant will be for up to a total of \$5,000 over the years of your remaining study, which we pay directly to the study organization for tuition and fees and to you for other qualified expenses.

The Foundation will provide a visibility campaign to increase recognition for the student and these academic programs.

Conditions of the Pay A BUCK Forward Grant

The Pay A BUCK Forward Grant has a unique structure as a Giving Back Grant Program where upon graduation and employment, the student will begin to repay a set percentage of their salary to the Foundation so a grant can be provided to another round of students. This percentage varies with their salary and therefore this arrangement does not put the student into debt.

Grant recipients are required to sign a scholarship and repayment documents to ensure the perpetuation of this giving back system.

Selection Criteria

The BUCK Cancer Foundation is seeking applicants with a strong interest in integrative cancer treatment in her/his future career and is in an undergraduate, graduate or post-graduate program. Applicants must demonstrate a high degree of support for the BUCK Cancer Foundation's mission and readiness to successfully accept and use the grant.
